

## CHLORINE-RESISTANT LANDING PAD

### PROTECT YOUR GUESTS BELOW THE WATERLINE WITH SLIDEPAD®

Aquatic landing pads made of PVC pool liner remnants bonded to individual layers of foam, secured to a plastic backing plate and bolted to the pool floor is OLD TECHNOLOGY.

Drilling holes and installing bolts in the pool floor increases the probability of water leaks, surface cracks and creates a safety hazard. These traditional landing pads haven't kept pace with the ever-changing demands brought about by salt, bromine and super chlorination water chemistries. Additionally, interactive water features and innovative water slide designs require safer and softer landing surfaces.

AquaticPads™ has "re-engineered" the aquatic landing pad. We have eliminated the need to drill holes and install bolts. Our SlidePad® is glued down to the pool floor with the strongest waterproof glue on the planet! We have enhanced the safety aspects and softness of the landing surface by featuring a top landing surface from Life Floor, the #1 aquatic flooring in the industry. Their proprietary RIPPLE texture landing surface provides a slip resistant surface that is NSF/ANSI 50 rated and meets critical fall height requirements. The Life Floor landing surface is covered under AquaticPads™ comprehensive warranty against wear and tear. See full warranty details on our website [www.AquaticPads.com](http://www.AquaticPads.com).

### VERSATILE, EASY TO INSTALL

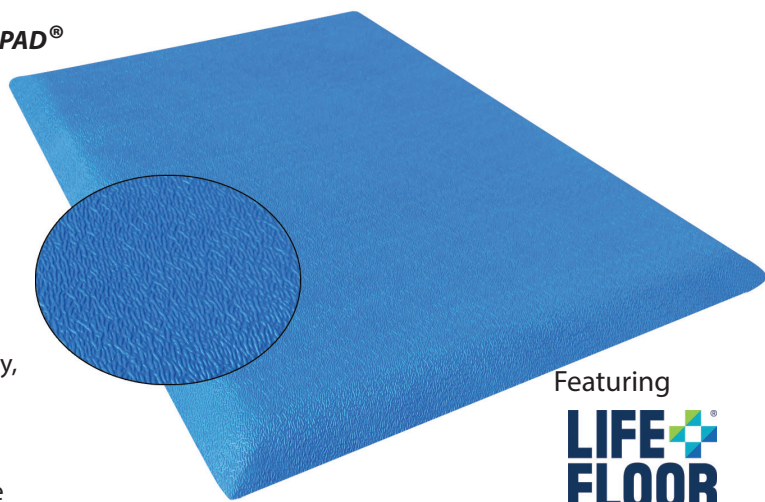

- Indoor or outdoor use.
- Adheres to any surface, above or below the water line.
- Install at the edge of any pool requiring a slip-resistant protective corner.
- DIY installation using the strongest glue on the planet.
- Installation kit has everything you need to install your SlidePad®.
- NO BOLTS, SCREWS, FASTENERS or DRILLING HOLES.

### WATERPROOF, CHLORINE RESISTANT

- Life Floor top landing surface and closed cell cushioning foam are impervious to water.
- Hygienic, fungi-static and algae resistant.
- Fade resistant EVA/XLPE closed cell foam technology.

### DURABLE

- Resilient to repeated impact.
- Retains slip resistant texture.
- No welded edges/seams/corners.

Standard LIFE FLOOR Color, Bluebird

Featuring  
**LIFE FLOOR**  
Landing Surface

### Standard SlidePad® Sizes

#### 2" Thick Cushion Foam

3' x 4'	SP02034	\$ 1,000.00
3' x 5'	SP02035	\$ 1,300.00
4' x 6'	SP02046	\$ 1,700.00
4' x 8'	SP02048	\$ 2,100.00

### Custom SlidePad® Sizes

- **Thicknesses :** 1/2" to 3"
- **Custom Sizes:** Up to 4' wide by 8' long
- Call for pricing and delivery time

### SAFETY

- NO BOLTS, SCREWS, FASTENERS or DRILLING HOLES
- Guaranteed not to float!
- Soft beveled edges and borders reduce trip hazards.
- Life Floor top landing surface bonded to 2" of cushioning foam.

### WARRANTY

- 2 YEAR warranty against surface cracking, fading, disintegration, foam compression and loss of slip resistant properties.

## CHLORINE-RESISTANT EDGEPAD™

### PROTECT YOUR GUESTS ABOVE THE WATERLINE WITH EDGEPAD™

Protective corner pads made out of PVC pool liner remnants bonded to individual layers of foam and secured to a plastic backing plate that are bolted down to the pool floor or decking is OLD TECHNOLOGY. Drilling holes and installing bolts in the pool floor and decking increases the probability of water leaks, surface cracks and creates a safety hazard. These traditional corner pads haven't kept pace with the every-changing demands brought about by salt, bromine and super chlorination water chemistries. Additionally, complex interactive water features require safer and softer protective corners.

AquaticPads™ has "re-engineered" the protective corner pad. We have eliminated the need to drill holes and install bolts. Our EdgePad™ is glued down to the pool floor and decking with the strongest waterproof glue on the planet! We have enhanced the safety aspects, corners and softness of the landing surface by featuring a top landing surface from Life Floor®, the #1 aquatic flooring in the industry. Their proprietary RIPPLE texture landing surface provides a slip resistant surface that is NSF/ANSI 50 rated and meets critical fall height requirements. The Life Floor landing surface is covered under AquaticPads™ comprehensive warranty against wear and tear. See full warranty details on our website [www.AquaticPads.com](http://www.AquaticPads.com).
